

EcoAcid TAS™

Total acidizing additive system

DESCRIPTION

EcoAcid TAS is a complete, two-component additive package for most mineral acid and mixed organic/mineral acid formulations.

APPLICATIONS

- For any mineral acid system at temperatures up to 135° C (275° F)
- For any formation type
- Ideal for acid-sensitive crudes
- Can be formulated with sulfide control for treating sour wells and acid retarders for carbonate formations

- Reduces additive cost by up to 50 percent by eliminating the need for other additives
- Can reduce additives inventory by up to 70%
- Not harmful to personnel or the environment
- Little or no production system upset
- Little or no induced formation damage

- Simple, two-component system combines highly effective, yet economical, chemical components
- Contains high-performance nonemulsifiers, anti-sludge agents, and surfactants that are effective at low dosage rates (0.5 to 1.0%)
- Incorporates EcoAcid CI, GeoSafe's universal, environmentally friendly corrosion inhibitor
- Nontoxic, biodegradable

	<u>Component A</u>	<u>Component B</u>
Appearance	Brown liquid	Brown liquid
Specific gravity	1.043	0.928
Flash point	61° C (142° F)	15° C (59° F)
Solubility in water, acid, or brine	Soluble	Dispersible
