

GeoWash™

DESCRIPTION:

GeoWash is a water-based, environmentally safe, surfactant blend concentrate used at up to 10/1 dilution to clean casing, drill pipe, and surface equipment prior to cementing and the introduction of completion fluids. It is the only effective water-based cleaner for all types of synthetic-based drilling fluids.

PROPERTIES:

Appearance	Water white liquid
Specific gravity	1.01g/cm ³
Flash point	>200 °F
Pour point	<0 °F
Solubility	Complete
pH	Neutral

APPLICATION & ADVANTAGES:

GeoWash removes all muds, pipe dope, sand, oil, and polymer from surfaces including casing, drill pipes, tanks, pumps, lines, and shale shakers. Its primary function is to remove mud from the casing walls, and provide for a cleaner displacement with completion fluids.

Non-hazardous - no caustics or solvents, neither flammable nor corrosive.

Leaves surfaces water wet.

Available in tenfold concentrate.

Meets all biodegradability standards.

Temperature protected.

Can be used with any type of water -- fresh, sea, brine, or produced.

PACKAGE & HANDLING:

GeoWash is available in 55 gal drums and 275/gal totes
